SUMMARY

Motivated and enthusiastic Artificial Intelligence & Machine Learning student with a strong foundation in Python programming, frontend development, and web application development. Passionate about building user-friendly and efficient software solutions through continuous learning and hands-on project experience. Completed internships in Frontend Development, Python Programming, and Python Full Stack Development, gaining practical exposure to modern development tools and technologies. Seeking an opportunity to contribute technical skills, creativity, and problem-solving abilities in a dynamic software development environment.

EDUCATION

PACE Institute of Technology and Sciences, Valluru

Bachelor of Technology (B.Tech) – Artificial Intelligence & Machine Learning

Currently Pursuing

Sri Harshini Junior College, Ongole

Intermediate (MPC)

Year of Completion: 2024

Sri Geethanjali English Medium High School, Ongole

Secondary School Certificate (SSC)

Year of Completion: 2022

EXPERIENCE

Frontend Development Intern

CodeAlpha

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Built interactive user interfaces with a focus on clean design and usability.
- Improved frontend development skills through real-world projects.

Python Programming Intern

Oasis Infobyte

- Developed Python-based applications and mini projects.
- Strengthened programming fundamentals and problem-solving abilities.
- Gained practical experience in Python development.

Python Full Stack Development Intern

Brainovision Technologies

(Internship provided through the college)

- Learning Full Stack Development using Python and Django.
- Developing web applications with frontend and backend integration.
- Gaining practical experience in database management and software development.

PROJECTS

Weather App

- Developed a Python-based weather application that retrieves real-time weather information using a weather API.
- Displays temperature, humidity, and weather conditions through a simple interface.

Health Record Management System

- Built a Django-based web application for managing patient registration, appointments, and healthcare records.
- Implemented CRUD operations and database integration using SQLite.

Image Gallery

- Designed and developed a responsive image gallery using HTML, CSS, and JavaScript.
- Implemented an attractive layout with smooth navigation and responsive design.

Calculator

- Created a responsive calculator using HTML, CSS, and JavaScript.
- Supports basic arithmetic operations with a clean and user-friendly interface.

TECHNICAL SKILLS

Python

Java (Basics)

JavaScript

HTML5

CSS3

Responsive Web Design

Django

SQLite

MySQL (Basics)

Git

GitHub

Visual Studio Code

Canva

CERTIFICATIONS

Frontend Development Internship – CodeAlpha

Python Programming Internship – Oasis Infobyte

Python Full Stack Development Internship – Brainovision Technologies

STRENGTHS

Quick Learner Problem Solving Team Collaboration Adaptability Time Management Continuous Learning

CAREER OBJECTIVE

To begin my career in the software industry where I can apply my knowledge of Artificial Intelligence, Python, and Web Development while continuously learning new technologies and contributing to innovative software solutions. I aspire to grow into a skilled Full Stack and AI Developer who creates impactful, user-focused applications.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
